

Hygiaphone

GEWISS

The **Hygiaphone** droplet barrier is a special polycarbonate divider designed to ensure proper social distance in indoor work environments. Hygiaphone can be placed on desks, business counters or other similar contexts.

The exclusive advantages of Hygiaphone

Stable and sturdy structure

The Hygiaphone can be placed on the counter even without fixing it, due to its sturdy and stable structure or where necessary, the base of the bracket can be mounted to countertops by using the supplied screws.

Practical lower opening

The 16 cm high opening located at the bottom of the hygiaphone allows in total safety to exchange documents. Thus, making it an ideal barrier for offices with closed workstations or desktops/counters open to the public.

A transparent and easy-to-clean screen

The Hygiaphone's translucent semi-rigid screen allows perfect visibility from both sides and does not require any special treatment when cleaning.

A solution that fits every context

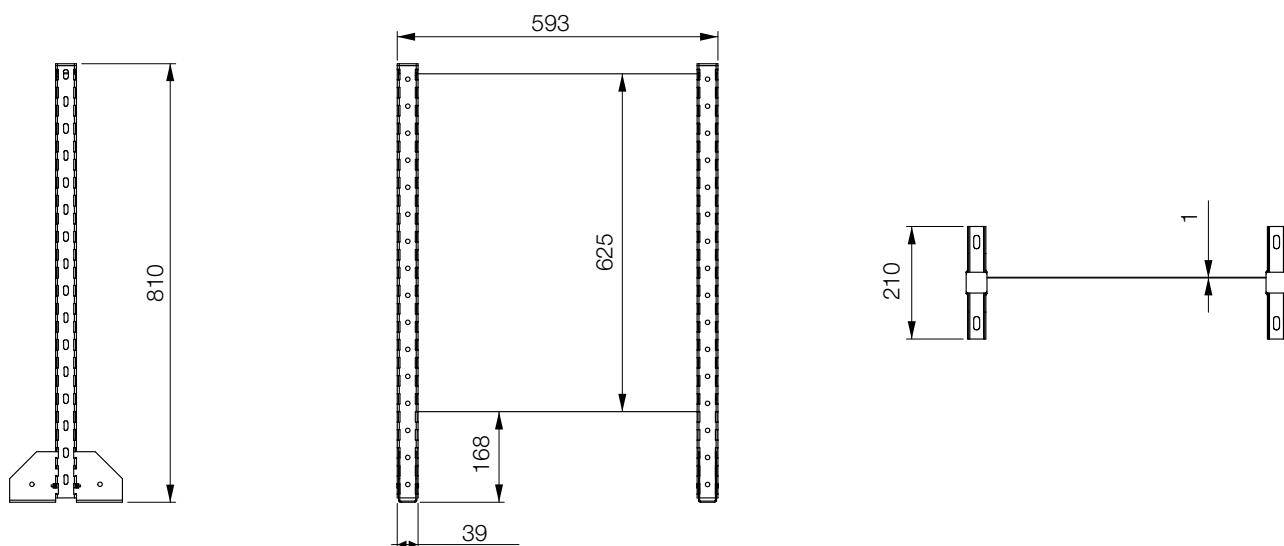

The polycarbonate screen and the two metal brackets form a pre-assembled kit that, due to its size (H810, L593, P210 mm), is perfect for banks, tobacco shops, shops and other businesses.
