Watertight plates

CHORU**S**MART

Innovation and quality without compromise.

The new watertight plate from the ChoruSmart domestic range offers a **door opening up to 160°**, improving accessibility and durability over time. It features a **newly designed internal gasket** for high protection against weather conditions **(IP55)** and **new fixing screws**. Available in **2-module versions** for round/square boxes (international standard) and **3-** and **4-module versions** for rectangular boxes, the plate is made in **white, black, and titanium colors** with a **glossy finish**. Aesthetics and functionality come together in a product designed to last over time.

Advantages

Modern design

The watertight plates, available in three elegant colors and equipped with a large transparent ergonomic membrane, feature a simple and discreet design, making them ideal for housing and protecting the ChoruSmart domestic range devices.

Simplified installation

The door opening up to 160° ensures easy access to the devices. Additionally, the possibility of mounting on deeply positioned flush-mounted boxes makes the plate installation simple and quick.

Durability over time

The new handle and spring design makes it easier to release and open the door. The new gasket offers greater resistance to weather conditions, giving the plate robustness and durability over time.
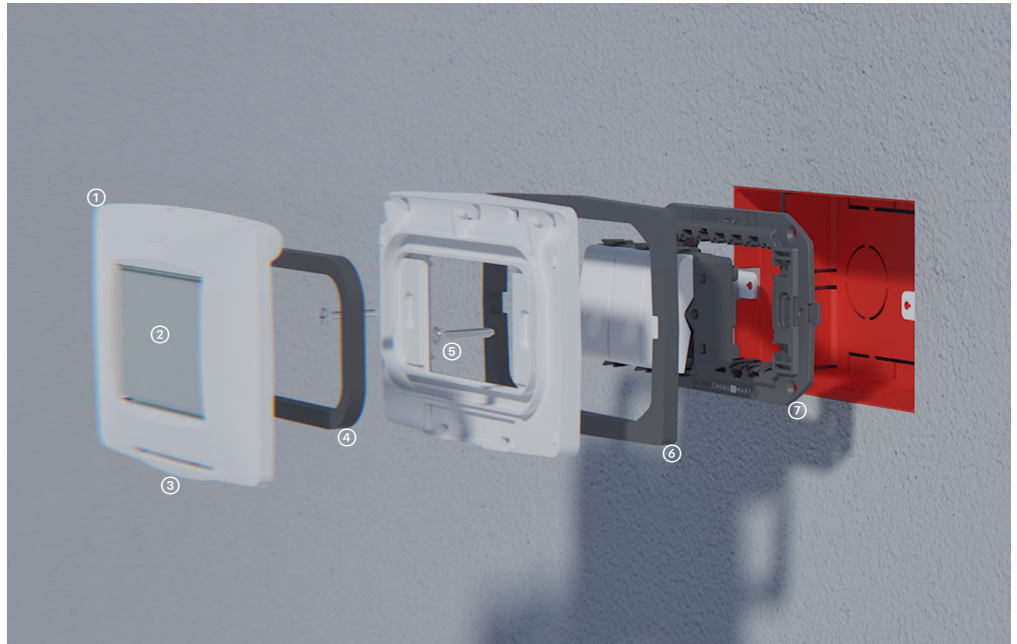

Sustainability

GEWISS is strongly committed to selecting raw materials and processes that reduce resource consumption and promote the reuse of materials at the end of their life cycle. The plastic film used in the packaging is recyclable.

GEWISS

The watertight plate in detail

① **Aesthetic plate** available in 3 colours with glossy finish: white, black and titanium

② **Ergonomic membrane** made of UV-resistant material

③ **Handle** with simplified opening and optimised fastening system

④ **Improved gasket** for excellent weather protection

⑤ **Long screws** for fixing the plate even on boxes installed in depth

⑥ **Soft gasket** for perfect adhesion of the plate to the wall

⑦ **Support** for ChoruSmart devices

The range

Colours: white, black and titanium
Modularity: 2 modules (international std)
Suitable for: round/square box

Colours: white, black and titanium
Modularity: 3 modules (italian std)
Suitable for: rectangular box

Colours: white, black and titanium
Modularity: 4 modules (italian std)
Suitable for: rectangular box

Technical features

Standard:	EN 60669-1
Material:	Technopolymer
Finish:	Glossy
Protection degree:	IP55
Thermo-pressure with ball:	70°C
Glow Wire Test:	650°C
Support (included):	Square or rectangular
Screws length for support:	22mm (for square support)
	30mm (for rectangular support)
