

## **Product Data Sheet** GW66581

**IB** Range

Range of industrial sockets-outlets with rated current equal to 125A in compilance with IEC 60309, with electrical interlock and with MCCB or MCCB equipped with residual current device. The casing of the sockets is made in high performance polyester reinforced with fibre-glass, resistent tu UV rays according to EN 62208, impact and abonormal heat and fire. The robustness of the products and their resistance allow the installation in heavy duty environments and with critical atmospheric.
