ELIA FL

ELIA FL is a LED outdoor floodlight available in low, medium and high power versions for lighting external industrial areas, such as car parks and walkways or driveways. It can be mounted on surfaces, ceilings or on the ground using the adjustable steel bracket supplied with the device, or in the pole head version, courtesy of the dedicated accessory for poles with a diameter of up to 61 mm . Crafted from black powder-coated die-cast aluminium, it is available in four sizes and powers, with integrated power supply in the On/Off or DALI options three types of optic ( $30^{\circ}, 60^{\circ}$ and asymmetrical) with a colour temperature of $4,000 \mathrm{~K}$ (neutral white) and a colour rendering index of more than 80 . Tough and durable, ELIA FL has been designed to withstand surges of up to 10 KV and temperature variations from $-30^{\circ} \mathrm{C}$ to $+50^{\circ} \mathrm{C}$, and offers protection from water and dust penetration of up to level IP66 and from shocks and impacts of up to level IK08. ELIA FL is quick and easy to install thanks to its limited weight and adjustable bracket.
